PROFESSIONAL SUMMARY

Web Developer specialized in MERN stack with a passion for user interface design. Accustomed to roles in collaborative, fast-paced work environments. A life-long learner and problem solver.

SKILLS

- HTML & CSS
- Javascript
- React
- Node.js
- SQL and NoSQL Databases
- REST APIs

PROJECTS

Peachtree Furniture - MERN Stack Application

- Developed a full-stack furniture retail application
- Applied multiple APIs to accept payments, allow file uploading, and protect user information
- Constructed an administrator panel to add new products to the database
- Utilized React Hooks throughout the application for stream-lined state management

Instant Messenger - React Application

- Created a real-time chat application using React and a NoSQL database for instant messaging
- Integrated Firebase authentication to allow users to securely log in to their accounts

Bloc Jams - React Application

- Designed an in-browser music player with responsive design to support playback on mobile, tablet, and standard sized displays
